{**D G** }{**Em D** } x2

**D G** What if I wasn't here? What if I disappeared?

**Em D** What if I never was born?

**D G** What would that mean to the people I know?

**Em D** Would for me they mourn?

**D Em** No one wants to lose someone. A

**G D** choice few have to make.

**Em G** If they let it birth, that might be the worst mis-

**D** take.

**D G** Miscarriages happen more than they should.

**Em D** It's a fact of life.

**D G** Too many mothers have been traumatized.

**Em D** God, why'd you cause so much strife?

**D Em** A woman may choose to end pregnancy.

**G D** That doesn't mean that she's bad.

**Em G** Why would you choose to make her feel more

**D** sad?

**Chorus:**

**A** A newborn anything is the

**G** most precious thing in the

**A** world to the

**G** mother.

**A G** Get between them and you'll feel a love

**A G** stronger than any other.

**Em G** Don't hate a mother who knows she can't be such a

**D** lover.

**D G** I may be in a star shining someday.

**Em D** after I live my life.

**D G** I had a family who cared for me.

**Em D** I'm glad they kept me alive.

**D Em** Quality over quantity.

**G D** Care for the things you have.

**Em G** Don't have a baby if you'll be a parent who's

**D** bad.

**D G** The world doesn't need more unwanted babies.

**Em D** Instead, love the ones who are here.

**D G** Give them support. Encourage their growth,

**Em D** even if they become queer.

**D Em** Some things you can't choose, like where are born or

**G D** genetics you inherit.

**Em G** We all chose to accept and give everyone

**D** merit.

**Chorus**

**D G** Family planning is liberty.

**Em D** Liberty purposes life.

**D G** Life is too precious to let

**Em D** government give you no choice.

**D Em** No one loves their abortion.

**G D** No one would choose "just because." Like

**Em G** when you're alive, no one should force who you

**D** love.

**D G** You might be unlucky to hear this song.

**Em D** Luckily, it's almost over

**D G** like an abortion someone may have had.

**Em D** Hopefully, they've had some closure.

**D Em** No one should force someone to give birth.

**G D** Get your mitts off their womb.

**Em G** Instead, help freedom for the living

**D** bloom.

**Chorus**

**Em G** Help who is here. Treat them like they were your

**D** mother.
