**Go to End**

## **End:**

**E D** Water falls down from storm clouds, quenching the land  
**E D** Rain drops are dripping on me and everyone in the band.  
**E D** The creeks and streams burst their banks. The rivers do the same.  
**E D** There's way too much water pouring from the singer's brain.  
**E D** I said we need a lotta water but this is way too much.  
**E D** Someone needs to tell me now to shut the shut up.  
**E D** Now you see me underwater holding my breath  
**E D** I guess too much water can also lead too death.  
**E D**  
**E D** We need water. What do we need?  
**E** We need water. Just not too much water!
